

## Business Clarity Matters

### Visible returns with our tailored SAP business solutions

As a qualified SAP Gold Partner we provide industry-tailored SAP solutions that improve business processes and technology integration between departments, as well as enabling organisations to gain valuable insights into their performance through enhanced business intelligence.

Clients choose us as a preferred supplier based on our ability to deliver cost effective solutions on time, in budget and to their business specifications.

**Chelford has been working with Markit to develop its SAP solution since 2008**

#### Have you benchmarked your business against your industry peers?

Our free business assessment\* provides you with a rapid benchmark against other companies in your business sector who have faced similar challenges. It will tell you what areas of your operations can be improved, and how.
